Trade-marks Journal

2018-09-12 — Vol. 65 No. 3333

Canada

Trade-marks Journal

Vol. 65 No. 3333

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(1) Clothes washing machines; dishwashers; clothes wringing machines; ironing machines for commercial use; dust collectors, bags, pipes, filters and brushes for dust collectors; ultrasonic cleaning apparatus; grinders; electric machines for household use in the nature of mixers, whips, food processors, centrifuges, mixers, emulsifiers, juicers, can openers, grinders, coffee grinders, knives, peelers, electric food slicers, meat grinders, vegetable grating machines, bread cutting machines, electric coffee mills, electric meat grinders, spice mills, salt and pepper mills; sewing machines; electrical steam or high-pressure cleaning machines and apparatus, namely multi-purpose steam cleaners; wind turbines; current generators, power generators; heating installation pumps.

(2) Hand tools and implements (hand-operated), namely kitchen scrapers, hammers, mallets, hand saws, kitchen knives, screwdrivers, ratchet handles, wrenches, digging bars, hand files, pliers, hand-held cutters; cutlery; razors; beard and hair clippers; animal hair clippers; non-electric hair irons; curling irons; goffering irons; curling wands; flat irons; hair removal apparatus, namely electric hair removers; electric or non-electric nail clippers; manicure sets, namely electric manicure sets; pedicure sets, namely electric pedicure sets; electric and non-electric nail buffers; electric razors; razor cases; shaving sets; skin care apparatus in the nature of facial cleansing brushes, suction devices for wrinkles and fine lines, facial ionic steamers; ear piercing apparatus; vegetable slicers; non-electric pizza slicers; vegetable choppers; non-electric cheese slicers; non-electric egg slicers; meat grinders; vegetable corers; nutcrackers; flat irons; blade sharpening instruments, namely manually operated razor blade sharpeners.

(3) Television apparatus; radio apparatus; DVD, high-density optical disc and compact disc players and recorders; MP3 and MP4 recorders and players; video tape recorders; high-fidelity systems; digital data transmitting and receiving apparatus, namely television transmitters, video transmitters, transceivers, radio receivers and transmitters, television receivers, audio receivers; television set-top boxes; radio and television transmitters; video compression apparatus, namely audio and video encoders, audio and video transcoders, multiplexers; video compression software; multimedia players, namely video disc players; multimedia tablets, portable electronic apparatus for receiving and reading text, images and sounds, namely electronic tablets, smart phones; e-books; personal digital assistants; projection screens and projectors; overhead projectors; cameras; video cameras; camcorders; pre-recorded compact discs, DVDs, and high-density optical discs featuring music, films, and television programs; short-range transceiver apparatus,

namely hand-held two-way radios; weather station apparatus, namely meteorological instruments, meteorological balloons; digital photo frames for photography; 3D (three-dimensional) movie glasses; telephone apparatus, namely smart phones; smart telephones; telematic servers, namely Internet and telephone servers; modems; telecommunication routers; apparatus and computer software for satellite tracking and navigation, namely global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; GPS plotters; satellites; satellite dishes; radio antennas, television antennas, cellular telephone antennas, car aerials; mobile applications and software for connected electronic apparatus for use in vehicles, namely vehicle radios, optical disc players, burglar alarms, rearview cameras for vehicles; data processing equipment, namely computers; computer software for the analysis, retrieval and indexing of texts, music and video recordings; computer software for connecting smart phones, smart TVs, smart terminals, intelligent video disc players and smart digital watches to cloud computer software or software applications enabling the remote entry, viewing, storing, archiving, researching, indexing, sharing, analysis, monitoring, tracking, upkeep and exchange of texts, music, and video recordings; computer software for the digital distribution of videos, music and video games; computer software and mobile applications accessible through computers, digital tablets, televisions, decoders, smart phones, smart watches, smartglasses for the management of connected electronic apparatus for use in the fields of connected health and wellness and home automation, namely bracelets, earphones, eyeglasses, belts, clothing, footwear, jewellery, key holders, scales, body composition analyzers, pedometers, heart rate monitors, body temperature measurement apparatus, tensiometers, blood glucose monitors, pulse oximeters, electrocardiographs, sleep measurement apparatus, blood pressure meters; computer screens; keyboards; computer mice; computer printers; scanners for computers, computer scanners, portable computer scanners; mouse pads; USB connectors, USB keys; cases containing video cable adapters for computers; computer servers; hard drives; memory cards; apparatus for sound amplification, modulation and detection, namely audio amplifiers; computer software for sound amplification, modulation and detection; computer software for the reception, recording, transmission, reproduction, storage, encryption, decryption of sound or images, namely software to control and improve audio equipment sound quality; audio and video cables, electronic cables; microphones; speakers; loudspeaker enclosures; portable mini enclosures; headphones; AA dry cells and all-purpose batteries; rechargeable batteries, namely solar batteries; camera battery and telephone battery chargers; apparatus for recharging electric accumulators, namely electric accumulator chargers; remote controls for televisions; camera accessories, in the nature of cables, batteries, chargers, flashes, tripods, lenses, filters, covers; chargers, batteries and covers for portable telephones and computers; hands-free kits, namely car-mounted units incorporating a speaker enabling hands-free use of a telephone handset; wall mounts for televisions; burglar alarms, personal security alarms, signal bells; video intercoms; infrared detectors, surveillance cameras; remote monitoring and video surveillance apparatus, namely electric and electronic video surveillance installations; remote monitoring and video surveillance software, namely computer software for the remote surveillance and control of electric and electronic video surveillance installations; motion sensors, smoke detectors, water leak detectors; gas detectors; electric device systems (apparatus) for automatically opening and closing doors and gates; electricity-generating solar panels, solar heating panels, photovoltaic panels, solar thermal panels, photovoltaic cells, solar collectors; solar inverters; solar batteries, solar battery chargers and electric batteries for vehicles; apparatus for conducting, transforming, accumulating, regulating and controlling electrical current, namely electric accumulators and power-recovery systems, electric remote ignition and starting devices, namely electronic ignition and starting systems for vehicles, lamps, audio and video products, namely television apparatus, radio apparatus, DVD, high-density optical disc and compact disc players and recorders, MP3 and MP4 recorders and players, video tape recorders, high fidelity systems, digital data transmitting and receiving apparatus, namely television transmitters, video transmitters, transceivers, radio receivers and transmitters, television receivers, audio receivers, television set-top boxes, radio and television transmitters, multimedia players, overhead projectors, video cameras; remote-controlled switches and sockets, namely electrical sockets; heat control apparatus, namely thermostats; boiler control instruments, namely electronic controllers for furnaces; thermostats; moisture and temperature sensors; kitchen scales, bathroom scales; connected bathroom scales; baby monitors; smart watches; connected glasses; infrared thermometers (other than for medical use); connected infrared thermometers (other than for medical use).

(4) Light therapy apparatus; massage apparatus, namely massage chairs; surgical, medical instruments for general, dental and veterinary exams; artificial limbs, eyes and teeth; body composition analysis machines (muscle mass, calories), namely body fat monitors; pedometers, heart rate monitors; body temperature measurement apparatus, namely fever thermometers; sweat detectors; tensiometers; blood glucose monitors; pulse oximeters; electrocardiographs; sleep quality measurement apparatus; medical apparatus for exercising, namely medical massage apparatus, facial massagers, gloves for massage.

(5) Apparatus for lighting, namely desk lamps, table lamps, LED light fixtures; light bulbs, halogen light bulbs, electric light bulbs; light-emitting diode light bulbs (LED light bulbs), luminous tubes, namely fluorescent lamp tubes; heating apparatus and installations, namely electric radiant heaters for household purposes, water heaters, hot water tanks, gas boilers, electric boilers; hot water bottles; electric baby bottle warmers, electric kettles, chafing dishes; electric coffee machines; electric yoghurt makers; electric waffle irons; electric deep fryers; cooking and steam generating apparatus and installations, in particular gas ranges and electric stoves, baking ovens, microwave ovens, cooking tables, roasters, pressure cookers, barbecues, cooking grills, rice cookers, pizza-baking machines; croque-monsieur machines; toasters; refrigeration apparatus and machines, in particular refrigerators, freezers, ice machines, electric wine cellars for storage and aging, water coolers; apparatus for drying, namely hand dryers; hair dryers; apparatus for ventilating, namely exhaust hoods for kitchens; air conditioning apparatus, namely air conditioners; portable electric fans; ventilation hoods; air humidifiers; water softening apparatus and installations, namely water softeners; tanning apparatus, namely tanning beds; apparatus for water supply, namely drinking fountains for residential use; sanitary installations, namely taps; machines and apparatus for deodorizing and purifying air, namely air deodorizers, electric perfume, essential oil and fragrance diffusers; electric blankets; dental jets; dental instrument sterilizers; solar heating apparatus, namely solar heating panels; heat accumulators; heat reclaimers; solar thermal water tanks, thermodynamic tanks, heat pumps, solar water heaters, heat exchangers; solar furnaces, sun lamps; thermal conversion solar collectors; incinerators; thermal conversion solar collectors; clothes dryers.

Goods

Class 09

(1) Computer software for controlling and operating unmanned aerial vehicles and hardware for unmanned aerial vehicles; computer hardware for unmanned aerial vehicles; Autopilots, namely electronic automatic controls and computer software to control the trajectory of unmanned aerial vehicles (UAV); Navigation apparatus, namely directional compasses systems, namely, geo-spatial location-finders, global positioning systems for unmanned aerial vehicles; Navigation apparatus and systems for unmanned aerial vehicles comprising of circuit boards, integrated circuits, electronic circuits, electric pressure sensors, proximity sensors, GPS antenna, data processors, digital signal processors, and embedded software for altitude solution and flight controls; Electronic components for Unmanned Aerial Vehicles (UAV) or Drones, namely, datalink electronic transmitters for communications, autopilots for guidance namely, Unmanned Aerial Vehicles (UAV) or Drones autopilot system for guiding UAV or Drone, serial interfaces for computers, interfaces for computers, serial interfaces for speed detectors, interfaces for speed detectors, servo interfaces for computers, computer hardware, computer software for controlling and operating Unmanned Aerial Vehicles (UAV), connectors and interconnectors for computers and computer hardware, computer network interface devices and computer interface boards, electronic display interfaces, and electronic communication systems for aerial robotics comprised of computer hardware and software to enable signaling, switching and control of electronic components for aerial robotics and power management, data management, aerodynamic control

surfaces, downlink transmission control, and interactions with other Unmanned Aerial Vehicles (UAV) or Drones and parts and fittings therefor; Electronic components for Unmanned Aerial Vehicles (UAV) or Drones, namely, radios for datalink transmitters, embedded data processors, computer hardware, computer software for controlling and operating Unmanned Aerial Vehicles (UAV), connectors and interconnectors for computers and computer hardware, computer network interface devices and computer interface boards, embedded digital signal processors and embedded software for communication between Unmanned Aerial Vehicles (UAV) or Drones and the ground and parts and fittings therefor; Software for the autonomous control and monitoring of unmanned aerial vehicles; Software for displaying electronic navigational information, video, image signals, and electronic sensor data, namely, geo-spatial coordinate data, speed data, image data obtained from unmanned aerial vehicles.

Class 12

(2) Unmanned aerial vehicles; Drones.

SERVICES

Class 35

(1) Business management namely, compliance management for reviewing standards and practices to ensure compliance with Federal, State, Local laws, regulations, provisions, rules and guidelines regarding unmanned aerial vehicles and drones; Business management services namely, managing documents and information relating to regulatory compliance and insurance compliance and conformance process in relation to unmanned aerial vehicles and drones, as well as audit management required by external organizations relating to Unmanned Aerial Vehicles (UAVs) and drones; business consulting services relating to UAVs, regulatory compliance management, UAV flight operations, UAV maintenance management; Providing flight paths and patterning for UAVs; assisting with aerial surveys, processing of information obtained from UAVs, and aerial data capture and analysis of the data from UAVs; business management services, namely, monitoring, managing, tracking, reporting, interactive record-keeping, and filing transactions and documents in the field of Unmanned Aerial Vehicles (UAVs) and drones; business data analysis; providing an Interactive record-keeping services for use in FAA and regulatory compliance in the field of Unmanned Aerial Vehicles (UAVs) and drones; Business services, namely, registering, screening, credentialing, and organizing operators of Unmanned Aerial Vehicles (UAVs) and drones, and documentation and information on behalf of others.

Class 37

(2) Technical consultation and support services, namely, providing technical advice in relation to the maintenance, repair, installation, servicing, and construction of unmanned aerial vehicles (UAV), unmanned aerial vehicle (UAV) building and assembly services; Technical support services, namely, providing technical advice in the field of Unmanned Aerial Vehicles (UAVs); Technical consultation in the field of Unmanned Aerial Vehicles (UAVs); Customizing, developing and installing computer hardware and software for unmanned aerial vehicles; Installation of computer systems and hardware for UAVs.

Class 42

(3) Cloud computing featuring software for use in unmanned aerial vehicle (UAV) flight planning, control, navigation, communication, monitoring, operation, scheduling, reporting, regulatory compliance, and analysis of data obtained by a UAV; technological consultancy and support services, namely providing technical advice in relation to the software for UAVs, maintenance of software for UAVs, installation software for UAVs; technological consultancy and support services, namely providing technical advice in relation unmanned aerial vehicles, autopilot, and other

guidance and navigation systems, namely global positioning system (GPS) receivers; technological consultancy and support services in the field of computer hardware development for UAVs; technological consultancy and support services, namely, Research, development, electrical engineering services in the field of UAVs and testing services in the field of UAVs; technological consultancy and support services, namely, the design of and parts for UAV; Technical consultation and support services, namely unmanned aerial vehicle (UAV) photography and videography services, unmanned aerial vehicle (UAV) mapping services, unmanned aerial vehicle (UAV) photogrammetry services, and custom unmanned aerial vehicle (UAV) design services; Customizing and installation of computer hardware and software for unmanned aerial vehicles.

Class 45

(4) Regulatory tracking, monitoring and compliance services in the field of unmanned aerial vehicles.

SERVICES

Class 35

(1) Advertising and business management consultancy; Publicity agencies; Publicity agents; business administration services; Providing office functions namely, business administration consultancy, hospital administration consultancy and placement of staff; Office functions, namely providing office functions for others namely copying of documents, processing of invoices, data processing, namely signal pre-processing and processing of electronic noise sensor signals and meta-data derived from spirometers, and processing ambient condition parameters obtained from medical ventilators, and subject characteristics analysis of breath samples; management and consultancy services relating to the development and operation of hospitals; business services, namely, administration, and management; compiling statistics; commercial business consultancy support regarding operation of a hospital; hospital administration; economic business management and consultancy; arranging of auctions for commercial purposes and charity purposes [fundraising].

Class 36

(2) Recruitment of financial donors for fundraising

Class 39

(3) Supply chain logistics consisting of the delivery of goods for others by air, rail, ship and truck.

Class 41

(4) Education, providing training and seminars in the field of medical and paramedical services, namely education, training and seminars for medical specialists, nursing professionals and dental hygienists; organization of congresses, seminars, conferences (education) and other educational meetings in the medical field; Publication and editing of printed matter.

Class 42

(5) Scientific research relating to diagnoses and medical treatments; medical research services; research into medical conditions; services involving development of a database linking research results to diagnoses; providing expert reports performed by lab technicians; services of chemists and physicists; services of medical, bacteriological and chemical laboratories regarding scientific research; services of chemists; services of medical, bacteriological and chemical laboratories regarding medical treatment; Research into medical conditions.

Class 44

(6) Medical services namely, providing medical clinics, medical screening, medical testing services; providing diagnoses on basis of breath research results; medical diagnostic services; doctors' services namely, medical clinics, medical screening, medical testing services; services of hospitals; information in the field of paramedical services; information in the field of medical testing services, medical treatment services provided by clinics and hospitals, medical imaging services, medical house call services, and mobile medical clinic services.

downloadable reports about property damage, property loss, climate, weather, and natural catastrophes; downloadable pictures, photographs and graphics in the fields of energy and natural resources, agriculture, mining, transportation, supply chain logistics, engineering, weather and climate, cartography, insurance, finance, construction, real estate, law enforcement, emergency services, government and geopolitics; software for cost estimating and other assessments in the building, construction, repair, restoration, maintenance and remodeling industries; software for detecting, identifying, measuring and analyzing conditions of roofs, building structures, property, terrain, land and structural material of buildings, namely damages and the need for repair and replacement; software for use in connection with aerial, terrestrial, satellite and other imagery and remote sensing technologies and with photographic data, geospatial data, locational data and other information and data generated in connection with remote sensing technologies; downloadable reports with aerial, terrestrial, satellite and other imagery and remote sensing technologies and with photographic data, geospatial data, locational data and other information and data generated in connection with remote sensing technologies; software for capturing, generating, taking, viewing, storing, editing, arranging, converting, combining, sharing, downloading, enhancing, providing, accessing, annotating, transmitting, manipulating, processing, analyzing, maintaining, searching, managing, displaying, detecting, reproducing, modifying and otherwise interacting with or utilizing information, data, and aerial, terrestrial, satellite, and geospatial imagery, and other imagery and outputs from sensory and detection technologies in the fields of energy and natural resources, agriculture, mining, transportation, supply chain, engineering, weather and climate, cartography, insurance, finance, construction, real estate, law enforcement, emergency services, government, real estate, astronomy and space exploration and geopolitics; software for capturing, generating, taking, viewing, storing, editing, arranging, converting, combining, sharing, downloading, enhancing, providing, accessing, annotating, transmitting, manipulating, processing, analyzing, maintaining, searching, managing, displaying, detecting, reproducing, modifying and otherwise interacting with or utilizing information, data, aerial, terrestrial, satellite, and geospatial imagery, and other imagery and outputs from sensory and detection technologies in connection with fraud detection, assessment of energy efficiency, analysis of infrastructure, analysis of electrical utilities infrastructure, forensic analysis, geographical information systems and risk assessment, risk detection, risk analysis, and risk management; software for creating drawings, floorplans, and schematics of building structures, roofs, other features of building structures, property, terrain and other objects and conditions; software for integrating electronic data and other information with real world environments for the purpose of generating maps, representations of building structures, roofs, other features of building structures, property, and terrain and other objects and conditions; software for use in providing information featuring aerial, terrestrial, satellite and geospatial imagery, and other imagery and other remote sensing technologies and photographic data, geospatial data, locational data and other information and data generated in connection with remote sensing technologies; software for photogrammetric analysis; software for use in detection, inspection, evaluation and assessment of conditions of buildings, roofs, property, terrain, structural material of buildings, and land, namely damages and the need for repair and replacement; software for risk assessment, analysis and management and hazard assessment, analysis and management; software to assist in insurance claims assessment, analysis and management; software for capturing, storing, managing, processing and transmitting photos, videos and sensory detection information in the fields of energy and natural resources agriculture, mining, transportation, supply chain logistics, engineering, weather and climate, cartography, insurance, finance, construction, real estate, law enforcement, emergency services, government, and geopolitics; software used for capturing, storing and accessing images and geographic, locational and other data regarding the captured, stored and accessed images; software for use in analysis, predictive modeling, and creating reports, relating to property damages, loss information, catastrophic loss information, climate, weather events, catastrophes and other events and conditions; software for controlling cameras, video cameras, webcams, manned and unmanned aircraft, drones for aerial photography, motion sensors, thermal sensors, pressure sensors, proximity sensors, velocity sensors, and optical sensors; software for use in valuations of real estate, buildings, fixtures, personal property and other objects; software for identifying, documenting, inventorying, and monitoring personal, commercial, and industrial property and other objects and any damage thereto and status, condition, value and location thereof; software, namely, graphic based construction estimation software, which estimates the cost of building or repairing structures and other objects; software, namely, cost estimation, project management and analytic reporting software; software for identifying, estimating and valuing insuring, remodeling, replacement and construction costs; downloadable reports, data files and software featuring information and analytics regarding weather, hazards, climate and natural catastrophes; downloadable electronic maps featuring information and analytics regarding weather, hazards, climate and natural catastrophes; downloadable software for creating and viewing reports and maps; downloadable books, white papers, research papers, instruction books, tutorials, treatises and educational games, all in the field of photography, videography, technology, use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology, insurance, real estate, building and construction, catastrophes, climate, weather events and issues, energy, natural resources, geopolitics, agriculture, and products, consulting and services related thereto; software for the operation of unmanned aerial systems; downloadable reports with information from computers or sensors about the status and conditions in residential and commercial buildings and in vehicles

SERVICES

Class 35

(1) providing pricing information for use in estimating and valuing the costs of construction, remodeling, repair or replacement of residential, commercial, industrial and agricultural structures and the fixtures and contents thereof; compilation and analysis of geospatial intelligence data, insurance data, business information, pricing, marketing, finance and business management

information in the fields of energy and natural resources, agriculture, mining, transportation, supply chain logistics, engineering, weather and climate, cartography, insurance, finance, construction, real estate, law enforcement, emergency services, government, real estate, and geopolitics; auditing of insurance claims estimations; business management consulting services; providing business information in the fields of imagery and geospatial data, energy and natural resources, agriculture, mining, transportation, supply chain logistics, engineering, weather and climate, cartography, insurance, finance, construction, real estate, law enforcement, emergency services, government, real estate, and geopolitics; providing forums in the fields of computer and imagery technology, use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology, insurance, real estate, building and construction, catastrophes, climate, weather events and issues, energy, natural resources, geopolitics, agriculture, and products, consulting and services related thereto; consulting services in the field of energy usage management and energy efficiency; providing business information in the fields of energy and energy efficiency, agriculture, natural resources, and geopolitical issues; business research and data analysis services in the field of drone services

Class 36

(2) obtaining and providing information and imagery on property damage, weather events and catastrophes, climate, agriculture, natural resources, energy sources, and terrain, to assist in insurance claims management and analysis, risk management and analysis, financial risk assessment, financial and investment analysis, and real estate valuation, and real estate risk management and analysis; insurance appraisals and evaluations; providing information in the field of insurance claims management and analysis, namely, information on weather, climate, and natural hazards

Class 38

(3) Providing technical information electronically by providing a website and providing access to a computer database containing information in the fields of aerial, terrestrial, and satellite imagery, remote sensing technologies, photographic data, photography, geospatial data, locational data, insurance claims, valuations of real estate, buildings, fixtures, and personal property, and building construction cost estimating and valuation; providing on-line forums for users to discuss use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology in the nature of computer vision technology and mobile remote sensing technologies, insurance, real estate, building and construction, catastrophes, climate, weather, energy, natural resources, geopolitics, and agriculture; providing on-line forums in the fields of technology, use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology, insurance, real estate, building and construction, catastrophes, climate, weather events and issues, energy, natural resources, geopolitics, agriculture, and products, consulting and services related thereto; providing on-line forums which allow users to exchange information and research, provide and receive feedback, and engage in peer review, regarding research in the fields of computer and imagery technology, use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology, insurance, real estate, building and construction, climate, catastrophes, weather events and issues, energy, natural resources, geopolitics, agriculture, and products, consulting and services related thereto; providing for on-line collaboration in the fields of technology, use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology, insurance, real estate, building and construction, climate, catastrophes, weather events and issues, energy, natural resources, geopolitics, agriculture, and products, consulting and services related thereto

Class 39

(4) rental of unmanned aerial vehicles

Class 41

(5) providing online nondownloadable books, white papers, research papers, instruction books, tutorials, treatises and educational games, all in the fields of photography, videography, technology, use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology, insurance, real estate, building and construction, catastrophes, climate, weather events and issues, energy, natural resources, geopolitics, agriculture, and products, consulting and services related thereto; educational services, namely, providing classes, seminars, conferences, workshops, and on-line courses of instruction in the fields of computer programming, computer software development, computer software development in the field of mobile applications and interfaces, computer system design, computer science, computer software application development, web development, and web design; educational services, namely, conducting distance learning instruction at the secondary, college and graduate levels; educational services, namely, providing courses of instruction over the Internet in the fields of computer programming, computer software development, computer software development in the field of mobile applications and interfaces, computer system design, computer science, computer software application development, web development, and web design; educational services, namely, providing internships, externships, and apprenticeships in the fields of computer programming, computer software development, computer software development in the field of mobile applications and interfaces, computer system design, computer science, computer software application development, web development, and web design; providing non-downloadable electronic publications in the nature of reports with information and analysis relating to data from aerial, terrestrial, and satellite imagery and other remote sensing technologies, photographic data, and geospatial data; educational services, namely, providing in-person and on-line training courses, seminars and workshops and providing round table and panel discussions all in the fields of use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology, insurance, real estate, building and construction, climate, natural catastrophes, weather, energy, natural resources, geopolitics, and agriculture; educational services, namely, providing in-person and on-line training courses, seminars and workshops and providing round table and panel discussions, in the fields of technology, use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology, insurance, real estate, building and construction, climate, catastrophes, weather events and issues, energy, natural resources, geopolitics, agriculture, and products, consulting and services related thereto; aerial photography and videography services; training in the use and operation of unmanned aerial vehicles and consultation relating thereto

Class 42

(6) providing an interactive website featuring technology that allows users to view, annotate and manipulate geospatial data related to properties, structures and characteristics of the earth and objects upon the earth; obtaining information and providing information and analysis about images and measurements of building structures, roofs, other features of building structures, property, terrain, and other objects and conditions, using aerial, terrestrial, satellite and geospatial imagery and other imagery and remote sensing technologies; providing geographic information and measurement information through the collection, manipulation, processing, and formatting of images and geographic measurements of geographic locations; providing computer representations of geographic locations created from aerial, terrestrial, satellite and geospatial imagery and other imagery and remote sensing technologies; providing three dimensional imagery and computer modeling in the fields of measurements and images of building structures, roofs, other features of building structures, property, terrain and other objects and conditions; remote

measuring services for building structures, roofs, property, other features of building structures, terrain, and other objects and conditions, using aerial, terrestrial, satellite and geospatial imagery and other imagery, other remote sensing technologies, and computer software; obtaining information and imagery, and providing information, imagery, and analysis, relating to building structures, roofs, other features of building structures, property, terrain, other objects and conditions, weather, natural hazards, climate, and natural disasters, for use in building inspections, risk assessment, hazard assessment, reconstruction assessment, and to assist in insurance claims management and analysis; providing online nondownloadable software for cost estimating and other assessments in the building, construction, repair, restorating, maintenance and remodeling industries; providing online nondownloadable software for detecting, identifying, measuring and analyzing roofs, building structures, property, terrain, and other objects and conditions; providing online nondownloadabe software for use in connection with aerial, terrestrial, satellite and geospatial imagery and other imagery and remote sensing technologies, and with photographic data, geospatial data, locational data, and other information and data in connection with remote sensing technologies; providing online nondownloadable software for creating drawings, floorplans, and schematics of building structures, roofs, other features of building structures, property terrain and other objects and conditions; providing online nondownloadable software for integrating electronic data and other information with real world environments for the purpose of generating maps, representations of building structures, roofs, other features of building structures, property, terrain and other objects and conditions; providing online nondownloadable software for use in providing information featuring aerial, terrestrial, satellite and geospatial imagery and other imagery and remote sensing technologies and photographic data, geospatial data, locational data, and other information and data generated in connection with remote sensing technologies; providing online nondownloadable software for photogrammetric analysis; providing online nondownloadable software for use in detection, inspection, evaluation and assessment of buildings, roofs, property, terrain, structural material of buildings and land and the need for repair and replacement; providing online nondownloadable software for risk assessment, analysis and management and hazard assessment, analysis and management; providing nondownloadable software to assist in insurance claims assessment, analysis and management; providing online nondownloadable software for capturing, storing, management, processing and transmitting photos, videos, information received from cameras, video cameras, webcams, manned and unmanned aircraft, and other devices for gathering aerial imagery, motion sensors, thermal sensors, pressure sensors, proximity sensors, velocity sensors, pressure sensors, and optical sensors; software used for capturing, storing and accessing images and geographic, locational and other data regarding the captured, stored and accessed images; providing an interactive website featuring technology that allows users to order and view imagery, map images, and geospatial data; providing an interactive website featuring information, imagery, and analysis about building structures, roofs, other features of building structures, property, terrain, other objects and conditions, weather, climate, and natural disasters; providing an interactive website featuring information, imagery, and analysis about natural resources, energy, energy efficiency, electrical utilities infrastructure, agriculture, geopolitics, mining, transportation, supply chain, engineering, cartography, insurance, finance, construction, real estate, law enforcement, emergency services, government, astronomy and space exploration, weather, and climate; providing an interactive website featuring information, imagery, and analysis about fraud detection, assessment of energy efficiency, analysis of infrastructure, analysis of electrical utilities infrastructure, forensic analysis, geographical information systems and risk assessment, risk detection, risk analysis, and risk management; providing information, imagery, and analysis about natural resources, energy, energy efficiency, electrical utilities infrastructure, agriculture, geopolitics, mining, transportation, supply chain, engineering, cartography, insurance, finance, construction, real estate, law enforcement, emergency services, government, astronomy and space exploration, weather, and climate; providing information, imagery, and analysis about fraud detection, assessment of energy efficiency, analysis of infrastructure, analysis of electrical utilities infrastructure, forensic analysis, geographical information systems and risk assessment, risk detection, risk analysis, and risk management; obtaining information and providing information and analysis about imagery and measurements of building structures, roofs, other features of building structures, property, terrain, and other objects and conditions, gathered by manned and unmanned aerial systems; providing online nondownloadable software for use in analysis, predictive modeling, and creating reports, in the field of property damages, loss information, catastrophic loss information, climate, weather events, catastrophes, and other events and conditions; providing information and analysis about landscapes, climate, and the environment, and changes and risks associated therewith using aerial, terrestrial, satellite and other imagery and remote sensing technologies; providing online nondownloadable software for controlling cameras, video cameras, webcams, manned and unmanned aircraft, and drones for aerial photography, motion sensors, thermal sensors, pressure sensors, proximity sensors, velocity sensors, and optical sensors; providing an interactive website featuring technology that allows users to access, review, comment on, receive training on, and provide feedback on, software and services in the field of insurance and conduct interactive discussions in the field of insurance; providing online non-downloadable software for use in valuations of real estate, buildings, fixtures, personal property and other objects; providing online nondownloadable software for documenting, inventorying, and monitoring personal, commercial, and industrial property and other objects and any damage thereto and status, condition, value and location thereof; providing online nondownloadable software for communicating with insurance policyholders and insurance industry professionals, for providing and tracking customer surveys and for estimating the costs of insurance, construction, engineering, remodeling or replacement of residential, commercial, industrial and agricultural buildings and the fixtures and contents thereof; providing online nondownloadable software, namely, graphic based construction estimation software, which estimates the cost of building or repairing structures and other objects; providing online nondownloadable software, namely, cost estimation, project management and analytic reporting software; providing online nondownloadable software for identifying, estimating and valuing insuring, remodeling, replacement and construction costs; providing online nondownloadable software featuring information and analytics regarding weather, hazards, climates, and natural catastrophes; providing a database with information and analysis about weather, climate and natural hazards; providing online non-downloadable software for creating reports about weather, climate, and natural hazards; providing online non-downloadable software for creating maps; electronic storage services, namely, storing data for others in the field of insurance claims, valuations of real estate, buildings, fixtures, and personal property, and construction, replacement and remodeling costs estimates; electronic storage services, namely, storing data for others in the fields of residential, commercial, industrial and agricultural real estate valuations, construction, replacement and remodeling costs estimates; electronic storage services, namely, storing data relating to residential insurance valuation calculations; electronic storage services, namely, storing data on insurance claims that involve damages to real property, home warranties, valuations of real estate and buildings, and insurance policies covering real estate; electronic storage services, namely, storing data from aerial, terrestrial, satellite and other imagery and remote sensing technologies, photographic data and geospatial data; providing online non-downloadable software for education and training in the fields of insurance cost valuation and residential construction and remodeling; providing online non-downloadable software for identifying, documenting, inventorying, and monitoring personal, commercial, and industrial property and other objects and any damage thereto and status, condition, value and location thereof; providing online non-downloadable software for calculating the costs of repairs and for monitoring of claims under home warranties and building insurance policies; providing online non-downloadable software for calculating the costs of, tracking the progress and payments of, and reporting personal property claims; development of industry standards and practices relating to imagery and geospatial intelligence and analysis, and use of manned and unmanned aerial vehicles and related technology; providing technology information relating to imagery and geospatial intelligence and analysis, and manned and unmanned aerial vehicles and related technology; providing on-line databases and preparation of customized reports and analytical documents delivered electronically featuring information and analytics on weather, climate and natural hazards; providing on-line, non-downloadable software for creating and viewing reports and maps about weather, climate and natural hazards; providing a website featuring non-downloadable software for creating and viewing reports and maps; providing online nondownloadable software for the operation of unmanned aerial systems; providing online nondownloadable software for capturing, generating, taking, viewing, storing, editing, arranging, converting, combining, sharing, downloading, enhancing, providing, accessing, annotating, transmitting, manipulating, processing, analyzing, maintaining, searching, managing, displaying, detecting, reproducing, modifying and otherwise interacting with or utilizing information, data, and aerial, terrestrial, satellite, and geospatial imagery and other imagery and outputs from sensory and detection technologies; providing online nondownloadable software for capturing, generating, taking, viewing, storing, editing, arranging, converting, combining, sharing, downloading, enhancing, providing, accessing, annotating, transmitting, manipulating, processing, analyzing, maintaining, searching, managing, displaying, detecting, reproducing, modifying and otherwise interacting with or utilizing information, data, and aerial, terrestrial, satellite, geospatial and other imagery and outputs from sensory and detection technologies in the fields of energy and natural resources, agriculture, mining, transportation, supply chain, engineering, weather and climate, cartography, insurance, finance, construction, real estate, law enforcement, emergency services, government, astronomy and space exploration and geopolitics; providing online nondownloadable software for capturing, generating, taking, viewing, storing, editing, arranging, converting, combining, sharing, downloading, enhancing, providing, accessing, annotating, transmitting, manipulating, processing, analyzing, maintaining, searching, managing, displaying, detecting, reproducing, modifying and otherwise interacting with or utilizing information, data, aerial, terrestrial, satellite, and geospatial imagery and other imagery and outputs from sensory and detection technologies in connection with fraud detection, assessment of energy efficiency, analysis of infrastructure, analysis of electrical utilities infrastructure, forensic analysis, geographical information systems and risk assessment, risk detection, risk analysis, and risk management; electronic monitoring and reporting of status and conditions in residential and commercial buildings and in vehicles using computers or sensors; obtaining and providing information from computers or sensors relating to the status and conditions in residential and commercial buildings and in vehicles

Class 45

(7) home and vehicle security monitoring using sensors

CLAIMS

Priority Filing Date: UNITED STATES OF AMERICA January 13, 2016, Application No: 86/873,935 in association with the same kind of goods and in association with the same kind of services. Proposed Use in CANADA on goods and on services

Application Number 1,791,186 **Filing Date** 2016-07-13
Language of Application English

APPLICANT AND REPRESENTATIVE FOR SERVICE

Applicant
Insurance Services Office, Inc., 545
Washington Boulevard, Jersey City, NJ 07310,
UNITED STATES OF AMERICA

Representative for Service
BORDEN LADNER GERVAIS LLP
World Exchange Plaza, 100 Queen Street,
Suite 1300, Ottawa, ONTARIO, K1P1J9

GEOMNI G

Image Description (Vienna)
- Bars, cables – Notes: (a) Including electric cables. – (b) See also 9.1.7.
- Cables or cords with electric plugs
- Electrical equipment
- Switches
- Letters or numerals representing a human being or a part of the human body, an animal or a part of an animal's body, a plant, a heavenly body, a natural phenomenon or an object
- Letters or numerals representing an object

Goods

Class 09

downloadable reports about property damage, property loss, climate, weather, and natural catastrophes; downloadable pictures, photographs and graphics in the fields of energy and natural resources, agriculture, mining, transportation, supply chain logistics, engineering, weather and climate, cartography, insurance, finance, construction, real estate, law enforcement, emergency services, government and geopolitics; software for cost estimating and other assessments in the building, construction, repair, restoration, maintenance and remodeling industries; software for detecting, identifying, measuring and analyzing conditions of roofs, building structures, property, terrain, land and structural material of buildings, namely damages and the need for repair and replacement; software for use in connection with aerial, terrestrial, satellite and other imagery and remote sensing technologies and with photographic data, geospatial data, locational data and other information and data generated in connection with remote sensing technologies; downloadable reports with aerial, terrestrial, satellite and other imagery and remote sensing technologies and with photographic data, geospatial data, locational data and other information and data generated in connection with remote sensing technologies; software for capturing, generating, taking, viewing, storing, editing, arranging, converting, combining, sharing, downloading, enhancing, providing, accessing, annotating, transmitting, manipulating, processing, analyzing, maintaining, searching, managing, displaying, detecting, reproducing, modifying and otherwise interacting with or utilizing information, data, and aerial, terrestrial, satellite, and geospatial imagery, and other imagery and outputs from sensory and detection technologies in the fields of energy and natural resources, agriculture, mining, transportation, supply chain, engineering, weather and climate, cartography, insurance, finance, construction, real estate, law enforcement, emergency services, government, real estate, astronomy and space exploration and geopolitics; software for capturing, generating, taking, viewing, storing, editing, arranging, converting, combining, sharing, downloading, enhancing, providing, accessing, annotating, transmitting, manipulating, processing, analyzing, maintaining, searching, managing, displaying, detecting, reproducing, modifying and otherwise interacting with or utilizing information, data, aerial, terrestrial, satellite, and geospatial imagery, and other imagery and outputs from sensory and detection technologies in connection with fraud detection, assessment of energy efficiency, analysis of infrastructure, analysis of electrical utilities infrastructure, forensic analysis, geographical information systems and risk assessment, risk detection, risk analysis, and risk management; software for creating drawings, floorplans, and schematics of building structures, roofs, other features of building structures, property, terrain and other objects and conditions; software for integrating electronic data and other information with real world environments for the purpose of generating maps, representations of building structures, roofs, other features of building structures, property, and terrain and other objects and conditions; software for use in providing information featuring aerial, terrestrial, satellite and geospatial imagery, and other imagery and other remote sensing technologies and photographic data, geospatial data, locational data and other information and data generated in connection with remote sensing technologies; software for photogrammetric analysis; software for use in detection, inspection, evaluation and assessment of conditions of buildings, roofs, property, terrain, structural material of buildings, and land, namely damages and the need for repair and replacement; software for risk assessment, analysis and management and hazard assessment, analysis and management; software to assist in insurance claims assessment, analysis and management; software for capturing, storing, managing, processing and transmitting photos, videos and sensory detection information in the fields of energy and natural resources agriculture, mining, transportation, supply chain logistics, engineering, weather and climate, cartography, insurance, finance, construction, real estate, law enforcement, emergency services, government, and geopolitics; software used for capturing, storing and accessing images and geographic, locational and other data regarding the captured, stored and accessed images; software for use in analysis, predictive modeling, and creating reports, relating to property damages, loss information, catastrophic loss information, climate, weather events, catastrophes and other events and conditions; software for controlling cameras, video cameras, webcams, manned and unmanned aircraft, drones for aerial photography, motion sensors, thermal sensors, pressure sensors, proximity sensors, velocity sensors, and optical sensors; software for use in valuations of real estate, buildings, fixtures, personal property and other objects; software for identifying, documenting, inventorying, and monitoring personal, commercial, and industrial property and other objects and any damage thereto and status, condition, value and location thereof; software, namely, graphic based construction estimation software, which estimates the cost of building or repairing structures and other objects; software, namely, cost estimation, project management and analytic reporting software; software for identifying, estimating and valuing insuring, remodeling, replacement and construction costs; downloadable reports, data files and software featuring information and analytics regarding weather, hazards, climate and natural catastrophes; downloadable electronic maps featuring information and analytics regarding weather, hazards, climate and natural catastrophes; downloadable software for creating and viewing reports and maps; downloadable books, white papers, research papers, instruction books, tutorials, treatises and educational games, all in the field of photography, videography, technology, use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology, insurance, real estate, building and construction, catastrophes, climate, weather events and issues, energy, natural resources, geopolitics, agriculture, and products, consulting and services related thereto; software for the operation of unmanned aerial systems; downloadable reports with information from computers or sensors about the status and conditions in residential and commercial buildings and in vehicles

SERVICES

Class 35

(1) providing pricing information for use in estimating and valuing the costs of construction, remodeling, repair or replacement of residential, commercial, industrial and agricultural structures and the fixtures and contents thereof; compilation and analysis of geospatial intelligence data, insurance data, business information, pricing, marketing, finance and business management information in the fields of energy and natural resources, agriculture, mining, transportation, supply chain logistics, engineering, weather and climate, cartography, insurance, finance, construction, real estate, law enforcement, emergency services, government, real estate, and geopolitics; auditing of insurance claims estimations; business management consulting services; providing business information in the fields of imagery and geospatial data, energy and natural resources, agriculture, mining, transportation, supply chain logistics, engineering, weather and climate, cartography, insurance, finance, construction, real estate, law enforcement, emergency services, government, real estate, and geopolitics; providing forums in the fields of computer and imagery technology, use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology, insurance, real estate, building and construction, catastrophes, climate, weather events and issues, energy, natural resources, geopolitics, agriculture, and products, consulting and services related thereto; consulting services in the field of energy usage management and energy efficiency; providing business information in the fields of energy and energy efficiency, agriculture, natural resources, and geopolitical issues; business research and data analysis services in the field of drone services

Class 36

(2) obtaining and providing information and imagery on property damage, weather events and catastrophes, climate, agriculture, natural resources, energy sources, and terrain, to assist in insurance claims management and analysis, risk management and analysis, financial risk assessment, financial and investment analysis, and real estate valuation, and real estate risk management and analysis; insurance appraisals and evaluations; providing information in the field of insurance claims management and analysis, namely, information on weather, climate, and natural hazards

Class 38

(3) Providing technical information electronically by providing a website and providing access to a computer database containing information in the fields of aerial, terrestrial, and satellite imagery, remote sensing technologies, photographic data, photography, geospatial data, locational data, insurance claims, valuations of real estate, buildings, fixtures, and personal property, and building construction cost estimating and valuation; providing on-line forums for users to discuss use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology in the nature of computer vision technology and mobile remote sensing technologies, insurance, real estate, building and construction, catastrophes, climate, weather, energy, natural resources, geopolitics, and agriculture; providing on-line forums in the fields of technology, use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology, insurance, real estate, building and construction, catastrophes, climate, weather

events and issues, energy, natural resources, geopolitics, agriculture, and products, consulting and services related thereto; providing on-line forums which allow users to exchange information and research, provide and receive feedback, and engage in peer review, regarding research in the fields of computer and imagery technology, use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology, insurance, real estate, building and construction, climate, catastrophes, weather events and issues, energy, natural resources, geopolitics, agriculture, and products, consulting and services related thereto; providing for on-line collaboration in the fields of technology, use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology, insurance, real estate, building and construction, climate, catastrophes, weather events and issues, energy, natural resources, geopolitics, agriculture, and products, consulting and services related thereto

Class 39

(4) rental of unmanned aerial vehicles

Class 41

(5) providing online nondownloadable books, white papers, research papers, instruction books, tutorials, treatises and educational games, all in the fields of photography, videography, technology, use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology, insurance, real estate, building and construction, catastrophes, climate, weather events and issues, energy, natural resources, geopolitics, agriculture, and products, consulting and services related thereto; educational services, namely, providing classes, seminars, conferences, workshops, and on-line courses of instruction in the fields of computer programming, computer software development, computer software development in the field of mobile applications and interfaces, computer system design, computer science, computer software application development, web development, and web design; educational services, namely, conducting distance learning instruction at the secondary, college and graduate levels; educational services, namely, providing courses of instruction over the Internet in the fields of computer programming, computer software development, computer software development in the field of mobile applications and interfaces, computer system design, computer science, computer software application development, web development, and web design; educational services, namely, providing internships, externships, and apprenticeships in the fields of computer programming, computer software development, computer software development in the field of mobile applications and interfaces, computer system design, computer science, computer software application development, web development, and web design; providing non-downloadable electronic publications in the nature of reports with information and analysis relating to data from aerial, terrestrial, and satellite imagery and other remote sensing technologies, photographic data, and geospatial data; educational services, namely, providing in-person and on-line training courses, seminars and workshops and providing round table and panel discussions all in the fields of use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology, insurance, real estate, building and construction, climate, natural catastrophes, weather, energy, natural resources, geopolitics, and agriculture; educational services, namely, providing in-person and on-line training courses, seminars and workshops and providing round table and panel discussions, in the fields of technology, use of imagery, geospatial intelligence and analysis, manned and unmanned aerial vehicles and related technology, insurance, real estate, building and construction, climate, catastrophes, weather events and issues, energy, natural resources, geopolitics, agriculture, and products, consulting and services related thereto; aerial photography and videography services; training in the use and operation of unmanned aerial vehicles and consultation relating thereto

Class 42
(6) providing an interactive website featuring technology that allows users to view, annotate and manipulate geospatial data related to properties, structures and characteristics of the earth and objects upon the earth; obtaining information and providing information and analysis about images and measurements of building structures, roofs, other features of building structures, property, terrain, and other objects and conditions, using aerial, terrestrial, satellite and geospatial imagery and other imagery and remote sensing technologies; providing geographic information and measurement information through the collection, manipulation, processing, and formatting of images and geographic measurements of geographic locations; providing computer representations of geographic locations created from aerial, terrestrial, satellite and geospatial imagery and other imagery and remote sensing technologies; providing three dimensional imagery and computer modeling in the fields of measurements and images of building structures, roofs, other features of building structures, property, terrain and other objects and conditions; remote measuring services for building structures, roofs, property, other features of building structures, terrain, and other objects and conditions, using aerial, terrestrial, satellite and geospatial imagery and other imagery, other remote sensing technologies, and computer software; obtaining information and imagery, and providing information, imagery, and analysis, relating to building structures, roofs, other features of building structures, property, terrain, other objects and conditions, weather, natural hazards, climate, and natural disasters, for use in building inspections, risk assessment, hazard assessment, reconstruction assessment, and to assist in insurance claims management and analysis; providing online nondownloadable software for cost estimating and other assessments in the building, construction, repair, restorating, maintenance and remodeling industries; providing online nondownloadable software for detecting, identifying, measuring and analyzing roofs, building structures, property, terrain, and other objects and conditions; providing online nondownloadable software for use in connection with aerial, terrestrial, satellite and geospatial imagery and other imagery and remote sensing technologies, and with photographic data, geospatial data, locational data, and other information and data in connection with remote sensing technologies; providing online nondownloadable software for creating drawings, floorplans, and schematics of building structures, roofs, other features of building structures, property terrain and other objects and conditions; providing online nondownloadable software for integrating electronic data and other information with real world environments for the purpose of generating maps, representations of building structures, roofs, other features of building structures, property, terrain and other objects and conditions; providing online nondownloadable software for use in providing information featuring aerial, terrestrial, satellite and geospatial imagery and other imagery and remote sensing technologies and photographic data, geospatial data, locational data, and other information and data generated in connection with remote sensing technologies; providing online nondownloadable software for photogrammetric analysis; providing online nondownloadable software for use in detection, inspection, evaluation and assessment of buildings, roofs, property, terrain, structural material of buildings and land and the need for repair and replacement; providing online nondownloadable software for risk assessment, analysis and management and hazard assessment, analysis and management; providing nondownloadable software to assist in insurance claims assessment, analysis and management; providing online nondownloadable software for capturing, storing, management, processing and transmitting photos, videos, information received from cameras, video cameras, webcams, manned and unmanned aircraft, and other devices for gathering aerial imagery, motion sensors, thermal sensors, pressure sensors, proximity sensors, velocity sensors, pressure sensors, and optical sensors; software used for capturing, storing and accessing images and geographic, locational and other data regarding the captured, stored and accessed images; providing an interactive website featuring technology that allows users to order and view imagery,

map images, and geospatial data; providing an interactive website featuring information, imagery, and analysis about building structures, roofs, other features of building structures, property, terrain, other objects and conditions, weather, climate, and natural disasters; providing an interactive website featuring information, imagery, and analysis about natural resources, energy, energy efficiency, electrical utilities infrastructure, agriculture, geopolitics, mining, transportation, supply chain, engineering, cartography, insurance, finance, construction, real estate, law enforcement, emergency services, government, astronomy and space exploration, weather, and climate; providing an interactive website featuring information, imagery, and analysis about fraud detection, assessment of energy efficiency, analysis of infrastructure, analysis of electrical utilities infrastructure, forensic analysis, geographical information systems and risk assessment, risk detection, risk analysis, and risk management; providing information, imagery, and analysis about natural resources, energy, energy efficiency, electrical utilities infrastructure, agriculture, geopolitics, mining, transportation, supply chain, engineering, cartography, insurance, finance, construction, real estate, law enforcement, emergency services, government, astronomy and space exploration, weather, and climate; providing information, imagery, and analysis about fraud detection, assessment of energy efficiency, analysis of infrastructure, analysis of electrical utilities infrastructure, forensic analysis, geographical information systems and risk assessment, risk detection, risk analysis, and risk management; obtaining information and providing information and analysis about imagery and measurements of building structures, roofs, other features of building structures, property, terrain, and other objects and conditions, gathered by manned and unmanned aerial systems; providing online nondownloadable software for use in analysis, predictive modeling, and creating reports, in the field of property damages, loss information, catastrophic loss information, climate, weather events, catastrophes, and other events and conditions; providing information and analysis about landscapes, climate, and the environment, and changes and risks associated therewith using aerial, terrestrial, satellite and other imagery and remote sensing technologies; providing online nondownloadable software for controlling cameras, video cameras, webcams, manned and unmanned aircraft, and drones for aerial photography, motion sensors, thermal sensors, pressure sensors, proximity sensors, velocity sensors, and optical sensors; providing an interactive website featuring technology that allows users to access, review, comment on, receive training on, and provide feedback on, software and services in the field of insurance and conduct interactive discussions in the field of insurance; providing online non-downloadable software for use in valuations of real estate, buildings, fixtures, personal property and other objects; providing online nondownloadable software for documenting, inventorying, and monitoring personal, commercial, and industrial property and other objects and any damage thereto and status, condition, value and location thereof; providing online nondownloadable software for communicating with insurance policyholders and insurance industry professionals, for providing and tracking customer surveys and for estimating the costs of insurance, construction, engineering, remodeling or replacement of residential, commercial, industrial and agricultural buildings and the fixtures and contents thereof; providing online nondownloadable software, namely, graphic based construction estimation software, which estimates the cost of building or repairing structures and other objects; providing online nondownloadable software, namely, cost estimation, project management and analytic reporting software; providing online nondownloadable software for identifying, estimating and valuing insuring, remodeling, replacement and construction costs; providing online nondownloadable software featuring information and analytics regarding weather, hazards, climates, and natural catastrophes; providing a database with information and analysis about weather, climate and natural hazards; providing online non-downloadable software for creating reports about weather, climate, and natural hazards; providing online non-downloadable software for creating maps; electronic storage services, namely, storing data for others in the field of insurance claims, valuations of real estate, buildings, fixtures, and personal property, and construction, replacement and remodeling costs estimates; electronic storage services, namely, storing data for others in the fields of residential, commercial, industrial and agricultural real estate valuations, construction, replacement and remodeling costs estimates; electronic storage services, namely, storing data relating to residential insurance valuation calculations; electronic storage services, namely, storing data on insurance claims that involve damages to real property, home warranties, valuations of real estate and buildings, and insurance policies covering real estate; electronic storage services, namely, storing data from aerial, terrestrial, satellite and other imagery and remote sensing technologies, photographic data and geospatial data; providing online non-downloadable software for education and training in the fields of insurance cost valuation and residential construction and remodeling; providing online non-downloadable software for identifying, documenting, inventorying, and monitoring personal, commercial, and industrial property and other objects and any damage thereto and status, condition, value and location thereof; providing online non-downloadable software for calculating the costs of repairs and for monitoring of claims under home warranties and building insurance policies; providing online non-downloadable software for calculating the costs of, tracking the progress and payments of, and reporting personal property claims; development of industry standards and practices relating to imagery and geospatial intelligence and analysis, and use of manned and unmanned aerial vehicles and related technology; providing technology information relating to imagery and geospatial intelligence and analysis, and manned and unmanned aerial vehicles and related technology; providing on-line databases and preparation of customized reports and analytical documents delivered electronically featuring information and analytics on weather, climate and natural hazards; providing on-line, non-downloadable software for creating and viewing reports and maps about weather, climate and natural hazards; providing a website featuring non-downloadable software for creating and viewing reports and maps; providing online nondownloadable software for the operation of unmanned aerial systems; providing online nondownloadable software for capturing, generating, taking, viewing, storing, editing, arranging, converting, combining, sharing, downloading, enhancing, providing, accessing, annotating, transmitting, manipulating, processing, analyzing, maintaining, searching, managing, displaying, detecting, reproducing, modifying and otherwise interacting with or utilizing information, data, and aerial, terrestrial, satellite, and geospatial imagery and other imagery and outputs from sensory and detection technologies; providing online nondownloadable software for capturing, generating, taking, viewing, storing, editing, arranging, converting, combining, sharing, downloading, enhancing, providing, accessing, annotating, transmitting, manipulating, processing, analyzing, maintaining, searching, managing, displaying, detecting, reproducing, modifying and otherwise interacting with or utilizing information, data, and aerial, terrestrial, satellite, geospatial and other imagery and outputs from sensory and detection technologies in the fields of energy and natural resources, agriculture, mining, transportation, supply chain, engineering, weather and climate, cartography, insurance, finance, construction, real estate, law enforcement, emergency services, government, astronomy and space exploration and geopolitics; providing online nondownloadable software for capturing, generating, taking, viewing, storing, editing, arranging, converting, combining, sharing, downloading, enhancing, providing, accessing, annotating, transmitting, manipulating, processing, analyzing, maintaining, searching, managing, displaying, detecting, reproducing, modifying and otherwise interacting with or utilizing information, data, aerial, terrestrial, satellite, and geospatial imagery and other imagery and outputs from sensory and detection technologies in connection with fraud detection, assessment of energy efficiency, analysis of infrastructure, analysis of electrical utilities infrastructure, forensic analysis, geographical information systems and risk assessment, risk detection, risk analysis, and risk management; electronic monitoring and reporting of status and conditions in residential and commercial buildings and in vehicles using computers or sensors; obtaining and providing information from computers or sensors relating to the status and conditions in residential and commercial buildings and in vehicles

Class 45

(7) home and vehicle security monitoring using sensors

- One leaf
- Other leaves
- One leaf
- Inscriptions in Chinese or Japanese characters

Foreign Character Translation
As provided by the applicant, the English translation of Da Yung Zi (the Chinese characters) in the mark is making people to get together at one place.

Foreign Character Transliteration
As provided by the applicant, the mark consists of three Chinese characters "DA YUNG ZI". The first character "DA" means "great" in terms of size in Mandarin Chinese. The second character "Yung" means "a "park" in Mandarin Chinese. And the third character "ZI" means "a son." The overall meaning of the mark is "Making people to get together at one place".
